

colocation services

*High availability, energy efficient,
secure data centre space with
optional on-site support*

VERNet's Colocation Services offers customers the ability to purchase colocation space in world class data centres in Melbourne that provide high energy efficiency, high availability and facility security for your business data and applications.

These facilities offer access to the benefits of cloud computing, enabling you to connect on-demand to a host of cloud services such as AWS, IBM Cloud, Microsoft Azure, Google and Oracle.

Currently we can offer colocation services at the following data centres:

NextDC M1:	826 Lorimer Street, Port Melbourne
NextDC M2:	75 Sharps Road, Tullamarine
DXC:	4 Wesley Court, East Burwood

KEY FEATURES

From ¼ racks up to multiple full racks

Future proof – M2 facility can expand to 100s of racks

On-site remote hands available

24 x 7 network operations support
